KAOPS Solution for MIGRATING VMWARE TO AWS/AMAZON EKS

Move your VMware instances to AWS, modernize by running containers in Amazon EKS, and improve operations and costs - simultaneously.

With KAOPS, you can:

- Eliminate the need to hire a lot of SW developers ✓
- Eliminate the need to re-write application code ✓
- Leverage cloud-native open-source innovation ✓
- Enable your IT to standardize on the Kubernetes 'virtual data center' approach ✓

Reduced License Costs

KAOPS enables you to eliminate VMware license costs when migrating workloads to AWS / Amazon EKS.

Cloud Spending Control

Control your cloud spending by auto-scaling/bursting on Amazon EKS using KAOPS.

No Disruptions

KAOPS provides a seamless VMware migration to AWS/Amazon EKS modern container infrastructure, without disrupting existing apps.
