KAOPS Solution for
MIGRATING CLOUD FOUNDRY TO AWS/AMAZON EKS

Run your Cloud Foundry (CF) applications in AWS/Amazon EKS with a seamless low-cost migration and supported tooling.

With KAOPS, you can:

Eliminate PCF licenses ✅

Avoid training CF app developers to use EKS / K8s ✅

Leverage cloud-native, open-source innovation ✅

Use plug-in for CF developers to push apps to EKS ✅

Non-Disruptive Dev Experience

KAOPS innovation allows app developers to keep their CF experience while running their apps in AWS/Amazon EKS.

Reduced Datacenter Footprint

Transitioning to K8s allows you to run on fewer physical servers. KAOPS allows you to further optimize your resources utilization and cloud spending.

Empowered Ops

KAOPS enables Ops teams to efficiently monitor and upgrade applications without the developer involvement.
