KAOPS Solution for MIGRATING CLOUD FOUNDRY APPS TO KUBERNETES

Modernize Cloud Foundry (CF) applications with KAOPS, a cloud native management platform with a CF plug-in, pro-services evaluation, and process automation.

With KAOPS, you can:

- Eliminate PCF licenses ✓
- Eliminate VMware licenses ✓
- Avoid training CF app developers to use K8s ✓
- Migrate workloads to cloud or hybrid cloud ✓

Reduced Datacenter Footprint

The transition to Kubernetes allows you to run on fewer physical servers. KAOPS further optimizes your resources utilization and cloud spend.

Agnostic / Neutral Approach

KAOPS works with your cloud provider(s), your Kubernetes distribution(s), and any open-source software.

Empowered Ops

KAOPS enables Ops teams to monitor and upgrade applications without the developer involvement.
