KAOPS Solution for MIGRATING VMWARE TO KUBERNETES

Move your VMware instances to modern Kubernetes infrastructure and manage them as containers, with scale and resilience.

With KAOPS, you can:

- Migrate and modernize at the same time ✓
- Migrate VM workloads to cloud or hybrid cloud ✓
- Control cloud spend by auto-scaling/bursting ✓
- Reduce your datacenter footprint ✓

Decreased VMWare License Cost

KAOPS helps you reduce or eliminate VMware license costs with migration to your preferred Kubernetes distribution(s).

Simplified Workload Migration

KAOPS offers an agnostic, unified cloud native management approach that simplifies migration of your VMware workloads to any cloud or hybrid cloud.

Increased VM Resilience/Reliability

KAOPS enhances VM resilience and scalability without code modification, allowing seamless cloud refactoring, at your pace.
